

3a

Some of these guy  
wires are 2000' long.

3b

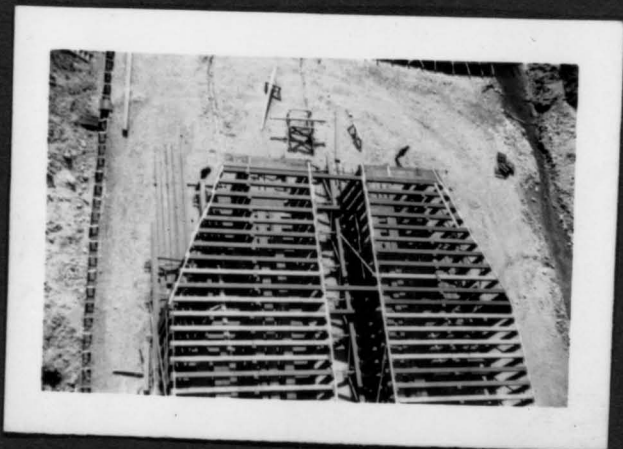

From the edge of the pit.  
The "hall", Camp in the background.

3c

Derrick control house.  
& 20' gauge tracks for the  
5 ton feeder derrick.

Bow of #4 as seen from  
the top of the derrick. (115' up).
